

The cartoning solution that's **just your speed.**

And just your **budget.**

With Douglas Spectrum® continuous motion cartoners, **you** choose the performance and automation level required for your application. With many competitive offerings, you're forced to pay for higher level capabilities whether you need them or not. With Douglas, rest assured your hard earned capital is paying for only what you need to carton your product efficiently, reliably & flawlessly.

Spectrum®. Everything you need, nothing you don't. Contact us today to find out how Douglas offers **more** for your cartoning investment!

Spectrum

- *Multiple configurations available to fit your application*
- *Pay only for the performance you need*
- *Built-in flexibility for multiple product types and patterns*

DOUGLAS

Built for **you**, built to last.

From loading to closing, each step is tailored to your application, ensuring maximum performance and perfect finished packages. Built to last, Spectrum cartoners offer extreme durability for less downtime, higher efficiencies, and reduced operating costs in the most demanding conditions.

- Speeds to 2,400 cans or 1,400 bottles per minute
- POL, FOL and/or butt flaps
- 4-24 count single tier packs
- Infeed solutions for PET bottles and cans, round or square products
- Air-assisted and positive placement carton setup adapts to varying carton style
- Seating wheel loading gently transfers product
- Live closure and static plows ensure consistent cartons
- Cycle stop flap closing prevents unsealed cartons from exiting
- Open frame designed for simplified sanitation
